GENERAL INFORMATION

1 Litre of ZINC-O-SOLTM 10% zinc contains 135 grams of Zinc (Zn) is available to plants through the foliage or the root system. This product can be applied to all crops. Applications of this product must be based on leaf or soil analysis or deficiency symptoms. Consult your extension specialist or agricultural representative for advice in selecting treatments from this label that best fit local conditions. All residues in the can are normally water soluble. Rinse and add the solution to the sprayer. If the residues are crystallized, dissolve completely in hot water and add the solution to the sprayer.

FOLIAR TREATMENTS

For best results, treat early in the season. Treat the crop when actively growing, early in the morning, late in the day or during overcast periods. Used between 200 L and 500 L of water per ha. With Ultra Low Volume (U.L.V.) sprayers, use at least 50 L of water/ha. If the spray solution is too concentrated, slight injury to the leaves could occur. For aerial applications, do not use more than one (1) L of this product for every four (4) L of water.

ZINC-O-SOL FOLIAR RECOMMENDED RATES:

Beans and Soybeans : 2.5 to 5 L/ha.

Corn : 2.5 to 5 L/ha.

Onions : 1 L/ha. Start at 7.5 cm (3") and repeat on 10 to 15 day intervals.
