PRODUCT DATA SHEET

Decco Equipment Cleaner 510

DESCRIPTION

This product is used on all parts of washer waxer equipments that have deposits of waxes and pesticides.

COMPOSITION

Contains water, synthetic detergents, inorganic builders and wetting agents.

DIRECTIONS FOR USE

Flush equipment parts with water. On a 2" x 4", attach a mop head to cover width of rollers belts, or sizers. Secure over the item to be cleaned. Soak the mop heads with 4 parts water to 1 part cleaner 510 solution. Turn on belts, rollers, or sizer and let run until wax becomes soft. Hose off with a strong stream of water. Use hot water where available to speed up cleaning time.

For brushes, soak in a solution of 1 part cleaner 510 to 9 part water. Let set approximately 2 hours or until wax softens. Hose off with a strong stream of water.

PRECAUTIONS

Decco Equipment Cleaner 510 is an alkaline product. Avoid splashing into eyes or skin. In case of skin contact, wash with water. In case of eye contact, wash eye with water for at least 15 minutes and get medical attention as soon as possible. Keep out of reach of children. Keep container closed. Use with adequate ventilation.

PHYSICAL PROPERTIES

Appearance:	Clear, pale yellow liquid
pH range:	12-13
